To My Friends and Patrons:

Please accept this catalog with my very best wishes for 1951. The past year has been a nerve wracking year as far as war and peace are concerned, but a very satisfactory year as far as gardens are concerned. How better to get away from Head Lines and Commentators than through an hour or so in the flower or vegetable garden, and what a satisfaction to sit down to a meal of home grown fruit and vegetables.

Grass, Clover and Alfalfa seeds of all kinds excepting Timothy seed are as high or higher than last year, but don't be tempted with cheap seed as there are enough weed seeds in your soil without buying more, as you would do in cheaper grades of seed.

Our home mixed lawn seed is blended with the very best grades of seed on the market and priced just as reasonable as possible, considering quality. Sow Sterling Lawn Grass seed after fertilizing your new lawn with sheep manure and bone meal at the rate of 3 to 5 lbs. to 1,000 sq. feet. On an old lawn use half that quantity but be sure to rake it in well, roll and fertilize with Vigoro just before a rain.

Peas and Fava Beans paid well last year and we have a good supply of the best kinds priced a bit cheaper than a year ago.

Fordhook Bush Limas and string beans are also cheaper in price and although they did not show much profit last year you can never judge how a crop will pay by the preceding year.

If your trees and shrubs need fertilizing our Agrico for Lawns, Trees and Shrubs is the very thing to use. About $\frac{1}{2}$ to 3 lbs. per tree or bush according to size placed in holes at the outside edge of the branches where the roots feed. Do not place close to tree or shrub.

We have an extra fine lot of Premier Strawberry Plants for 1951. Also quite a few Fairland, Fairpeake, Sparkle, Catskill and Robinson. They are all good but Premier is the most dependable for a good yield of nice berries holding their size well to the end.

Our Asparagus Roots made a good growth last year, not quite as large as the year before, but good for 1-year old. If you want larger roots we have them this year. Two-year old extra large crowns. Try a few in your garden and cut them next year.

If you will kindly look this catalog over, I hope you will find many things to interest you and that you will give us your order at an early date.

Thanking you for your patronage and good will in the past and with best wishes for the coming year, I remain,

Yours for the best in Seeds and Plants,

DIRECTIONS

By carefully reading and observing the following directions, mistakes will be largely avoided, and your order can be filled more promptly.

Please use the enclosed Order Sheet and self-addressed envelope if possible. If you need more, let me know and I will be glad to send more to you.

Write your name, address and shipping directions plainly.

Always send the cash with your order, unless otherwise agreed upon. Money may be sent by P. O. Money Order, Bank Draft or Registered Letter. Stamps may be sent for amounts under \$1.00, but be sure to put in three-cent stamps, wrapped in waxed paper.

We pay the postage on all seeds sold by the pkt., oz. and $\frac{1}{4}$ lb. Quantities over that are priced net, to be shipped Parcel Post, freight or express, at purchaser's expense, unless otherwise stated.

If you desire your seed sent by Parcel Post, add 12c for the first lb. and 2c for each additional lb. of your order, allowing 3 lbs. extra for package. For amount of postage on plants see Plant Department. These rates are for anywhere on Long Island.

By pricing my seeds net, postage extra, you get your seeds delivered for less money than if I quoted a Postpaid price as the 12c per lb. extra would have to be counted in and added to each single lb. priced.

$\frac{1}{2}$ lbs. will be sold at lb. rates; $\frac{1}{2}$ bu. at bushel rates.

No charge is made for packing or packages.

NOTE—In all orders received before April 1st we include trial packets of different kinds of seed, the number of packets depending upon the size of your order. If you find any of these of particular value we would be pleased to hear of it.

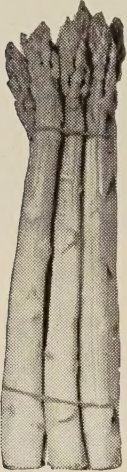

If you cannot use this catalog or receive more than one, will you kindly pass it on to someone interested? Thank you.

NOTICE—I give no warranty, express or implied, as to the productiveness of any seeds, bulbs, plants, shrubs or trees sold by me, and I will not be in any way responsible for the crop. My liability in all instances is limited to the purchase price.

GRASS, CLOVER AND ALFALFA SEED

Prices liable to change without notice. Grass seed is very scarce and high. Terms strictly cash.

I make my prices just as reasonable as is possible consistent with the quality. It is the very last fraction of 1% in purity that costs money. I believe that it pays big returns, too, as it is truer in seeds than anything else that "the best is none too good."

If your land is sour and Grass and Clover does not do well as a rule, a little lime sown on top of the ground and harrowed in before sowing the seed would be a great help.

LAWN MAKING

Our Lawn Grass Seed is mixed from the very best grass seed, recleaned and free from weeds, and we sell many hundred pounds all over Long Island, as there is no better grade seed on the market.

Loosen the soil in which a new lawn is to be made to a depth of at least five inches, and lighten it with humus, compost or manure if it is heavy and inclined to bake. Apply fertilizer liberally, either Sheep Manure, Bone Meal or both. Use Vigoro on established lawns in early Spring and early Fall.

Sow in the early Spring when cool weather and ample rainfall will insure complete germination and a good start for the seedlings before hot dry weather comes. If seeding must be delayed, special precautions must be taken to prevent the ground drying out. Early Fall is a very desirable time to seed, if moisture is sufficient.

See that the seed is well covered. Rake it into a new seed bed and roll so that the soil is firmed over the seed. Where seed is sown on an old lawn, always cover it with a top dressing of sand or soil and fertilizer and rake in. Seed thrown on the top of hard ground has no chance to grow and will merely wash off.

No Timothy or Rye Grass is ever used in our Lawn Grass Mixture.

JAPEDIZER

Kills the grubs and feeds the grass. Use 10 lbs. Japedizer per 1,000 square feet and water it in well. Afterwards loosen soil of bare and thin patches and reseed. Japedizer kills the grubs, spreads the Milky Disease in the beetles and fertilizes the grass.

Laughing Water, Southold, L. I., Aug. 10th.

After preparing the ground with your Peat Moss and Cow Manure, I sowed Sterling Lawn Grass about two weeks ago. I wish you could see it now. The grass is up about an inch and it looks like a piece of green velvet—H. C. H.

April 26, 1950.

I have been trying to get down to your store for two weeks and want 10 lbs. of Sterling Lawn Grass. I bought Sterling Lawn Grass seed last year and sowed it in my cemetery lot in Riverhead. I took good care of the grass and this year that is the best looking plot in the cemetery. I have already mowed the grass once.—C. P.

ATOMIC RED. Salmon red, white center.

BETTER TIMES. Beautiful dark rose-red.

FIAT. Salmon pink. Beautiful.

IRVINGTON BEAUTY. Fine clear pink.

Last year you sent me a packet of mixed annual flower seed. I wish you could have seen how beautiful they bloomed for me. Have a path through the center of vegetable garden and sowed that seed along the sides. Have seen pictures in magazines and I always thought they were exaggerated but they were nothing compared to the beauty of that 100 ft. row and they did not bloom for just a few weeks but until killed by frosts. M. P.

Real Estate Department

We have many choice lots and plots for sale. If you are interested in Eastern Long Island Real Estate, get in touch with me at your earliest convenience.

I am always willing to consult, advise or act as your agent if you are desirous of buying out this way or selling property you own in this vicinity.

I am a Licensed Real Estate Broker and have been buying and selling Real Estate since 1926.

Why not put some of your surplus money into land this year? It will be something you can always enjoy no matter if prices go up or down, and it is supposed to be the best hedge against inflation.

About all of Nassau Farms is sold and there are about 50 nice homes located there. I still have for sale the following:

NASSAU FARMS

Ten large lots on Lilac Lane. These lots are clear land and have 100 ft. frontage and over 300 ft. depth. Your choice of any of these beautiful lots, some of them overlooking Baldwin Creek and Peconic Bay, at reasonable prices.

Ask me about them. Would be pleased to show them to you.

Each lot has more than 100 ft. frontage on the water and over 300 ft. in depth. Deep water comes to the south side of this property so there would be good docking privileges.

Many oak trees cover the whole plot and there is a small pond in the center. The combination of high and low ground makes this plot one of the potential beauty spots of Nassau Point. The view from these lots includes Wunnewetta Harbor and Peconic Bay.

The three lots are to be sold in one large plot only, not separate, and I have priced them at a reasonable price with very good terms.
